

Peninsula Education Foundation

Student Ambassador

PEF has built a name in the Palos Verdes community for 40 years by raising much needed funds for all 17 district schools. This year, PEF has pledged to raise \$3.1 million, ensuring Palos Verdes public school students continue to have key academic programs and teachers; programs that are otherwise cut due to shortfalls in state funding.

With the support from our donors, we are able to provide funding for: physical education, music programs, library aides, STEM in 4th-12th grade, Chuck Miller teacher grants, Parent University, Safe School counselors, academic counselors/wellness counselors, College and Career staff, high school science fair and senior scholarships.

And this is where you come in. We are looking for two highly motivated, articulate and passionate students (juniors or seniors) who will serve as official PEF Ambassadors. You will gain experience working in a non-profit environment and will develop skills in marketing, communications, fundraising and development.

Some of your duties will include:

- **serve as a liaison between PEF and high school students and their families**
- **help build awareness of PEF and its mission**
- **attend 1-2 PEF Board of Trustees meetings within the academic school year**

Two students at each high school will be selected to serve as PEF Ambassadors from July 2019 - June 2020. Hours are flexible and we will work with your schedule! The application can be found at: <http://bit.ly/2X5Wsi5>. Please email application to diane@pvpef.org by Friday, June 7, 2019.
